## *Another Minimalism: Art After California Light and Space*

14 November 2015 – 21 February 2016

The exhibition contains sculptures, installations, photographs and film that play with how we experience light, colour and space in different ways.

### **Light and Emotion**

Light has a powerful effect on how we see and feel about the world around us. Move around the artworks in the exhibition. How does the light feel to you? Does it make you calm or excited? Warm or cold? Choose an artwork and draw your feeling in the lightbulb below.
