Access film
We have an access film that allows you to plan your visit and learn about what we offer.

Braille
There is Braille signage throughout the building.

Hearing induction loops
There are hearing loops fitted at the front desk and cafe counter. We also have a portable hearing loop system with headsets which is available to borrow during your visit. Please ask an Information Assistant if you require the hearing loop.

Handling boxes
For each exhibition we collate handling boxes with tactile materials relating to the work on display. Please ask an Information Assistant if you would like to use one.

Sensory backpacks
Sensory backpacks can be picked up at the bookshop and should be returned there after use. Inside you will find a selection of fidget toys and sensory aides. Please note, children must be supervised at all times when using the items in the backpack.

Further access information
All our access information is available via our website.
